Entry Locked Door

Due to recent events, we ask that parents not open the door for anyone who you do not recognize. We realize that you are being polite by opening the door for adults when they enter the building, but our number one concern is the safety of your children. If you are new to our center, please do not be offended if a parent gets a staff member before the door is opened.

Thank you for your cooperation and understanding. Again your children are our number one concern.

Computer Check In and Out for your Children

Please make sure you are checking your child in and out. This is very important for your child's safety.

This would also include before and after school parents checking their children in when they arrive in the morning. Then checking them out when you pick them up in the evening.
